

- ACTION ITEMS**
1. redraft the VISION for Literacy document and send to MoorGale & Tommie Sorriah/Daryl - as soon as possible
 2. additional 2005/10 ICT capital budget item - tension for all teachers in primary & secondary schools - immediately
 3. info re Mac desktop information for the committee - same terms as Tommie Sorriah/Daryl - for the next meeting
 4. final progress for the committee in advance of the Finance Committee budget meeting - same terms as Tommie Sorriah/Daryl - for the next meeting

we can have something which better suits the PC in the desktop

same and I will post something on Moodle

I am having from a considerable number of people whom I respect of the educational value of Mac and this is certainly influencing my thinking

although it is not necessary about the platform in the VISION is becoming more open source, MoorGale will not do anything we want as we do need to think about what is going to hold some in terms of what best supports learning and teaching. This is an valid for primary as it is secondary
