Steam Propulsion for LNG Carriers @ Singapore Maritime Academy

Objective: Steam Certificate of Competency Course at the Singapore Maritime Academy is a course to equip management level marine engineers of diesel ships to acquire the additional knowledge and proficiency to be competent and safe operators on steam propelled LNG vessels.

For Whom: It is a course for the sea-going marine engineers with Class I or Class II COC (Motorship) interested in getting a steam COC for sailing on LNG Carriers using boil-off LNG gas for steam propulsion.

Certificate: Endorsement at Operational Level for service onboard steam ships would be issued by Maritime and Port Authority of Singapore.

Next Course Date: 3rd March 2008

Course Duration: 6 weeks

Course Fees - S\$ 2696.40 inclusive of GST.
